### FLEXIBLE BRONCHOSCOPE - SINGLE-USE

Ambu® aScope™ 4 Broncho Large 5.8/2.8

#### **Sterile, ready when you need it.**

The single-use concept of aScope 4 Broncho Large once and for all solves the problem of accessibility, simplifies set-up for procedures, eliminates the need for complex cleaning procedures and minimizes the risk of cross-contamination. It comes sterile straight from the pack, offering improved patient safety and workflow.

The aScope 4 Broncho Large offers high quality bronchoscopy for a broad range of procedures. When connected to one of the portable monitors, Ambu aView™ 2 Advance or Ambu aView™, aScope 4 Broncho Large gives you clear visibility of the near and distal bronchial segments. The clear, sharp images and adaptive light control make identification of lung anatomy and navigation in the bronchial tree easy.

The high bending angles and precise tip motion of aScope 4 Broncho Large allows you to easily navigate into all segments of the lung. The high quality handle is designed with a shaped, rippled surface to provide a comfortable grip throughout the procedure. The lightweight and ergonomic design makes aScope 4 Broncho Large easy to use.

The aScope 4 Broncho Large has a working channel that is ideal for a wide range of bronchoscopy procedures, including BAL & BW procedures.

## SPECIFICATIONS

### Optical system

Field of View	85°
Direction of View	0° (forward viewing)
Depth of Field	6-50 mm
Illumination method	LED

### Insertion portion

Bending section	180° up, 160° down
Insertion cord diameter	180° up, 160° down
Distal tip diameter	6.3 mm (0.25")
Maximum diameter of insertion portion	6.3 mm (0.25")
Minimum endotracheal tube size (inner diameter)	7.0 mm
Minimum double lumen tube size (inner diameter)	–
Working length	600 mm (23.6")

### Channel

Average inner diameter	2.8 mm (0.110")
Minimum instrument channel width	2.6 mm (0.102")

### Suction connector

Connecting tube inner diameter range	6.5 mm - 9.5 mm
--------------------------------------	-----------------

### Operating environment, storage & transportation

Temperature in operating environment	10 ~ 40 °C (50 to 104 °F)
Temperature during transportation	10 ~ 40 °C (50 to 104 °F)
Temperature during storage	10 ~ 25 °C (50 ~ 77 °F)
Relative humidity	30 ~ 85 %
Atmospheric pressure	80 ~ 109 kPa

### Sterilization

Method of sterilization	ETO
-------------------------	-----

## ORDERING SPECIFICATIONS

Item no.	Quantity (Ambu® aScope™ 4 Broncho Large 5.8/2.8)
10-478177-1	5
10-478177-4	20

Ambu aScope 4 Broncho Large and Ambu aView 2 Advance

The ergonomic and lightweight handle is designed to give you a firm and comfortable grip
